

February 24, 1975

youngsters are getting a good education. Now, what are we going to do to those classes? If we have a good program and that program is working successfully, why should we put it under a strong rule or regulations. I want my daughter to have an opportunity to take those Driver Education classes next summer. I want my neighbors to have an opportunity for the same thing. We are fearful, yes we are fearful, and rightfully so that these opportunities will not exist if we get too strong and too rigid regulations from the Education Department. We are completely satisfied with good classes and those people in rural America need an opportunity to drive those cars. Those youngsters, some of them, drive quite a ways. They cannot walk. They need the opportunity and I think they have it now and let's not do away with a good program. I would support Senator DeCamp's motion because without a question in my mind, we do have good classes outstate and I want them to stay there and give those people an opportunity to drive and get good tests and good...as they have in the past, our particular schools up in that area are doing a great job and I want to congratulate them for educating these youngsters, encourage them to take more of the classes. Thank you.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: Mr. President, members of the Legislature, I appreciate Senator Keyes talking for our bill but he doesn't understand that one either. It doesn't have a thing to do with graduating from school and I think this is something he had better read into the bill. On this one here, I wonder if DeCamp...Senator DeCamp, he was mentioning the State Board of Education and I wonder, Senator DeCamp. May I ask him a question, Mr. President? Thank you. Senator DeCamp, you...

SENATOR DeCAMP: Yes sir.

SENATOR BARNETT: ...was speaking of the State Board of Education. Did you..this bill says State Department of Education.

SENATOR DeCAMP: That's precisely what I am asking.

SENATOR BARNETT: There is a difference and I wondered if you meant it.

SENATOR DeCAMP: Right.

SENATOR BARNETT: OK. I think that what we should look at and, Shirley, I think you should...maybe you want to comment but this says they...what you are doing is you are removing requirements for the driver instructor qualifications and they could go down. There is nothing in here says they have to go up.

SENATOR MARSH: Right.

SENATOR BARNETT: There is nothing in here that says they have to get tough as Senator Kennedy is trying to indicate. They could get less. If they have a place where they don't have an instructor, they might be able to use people that are less qualified and heaven help the kids, if they do that, but it is possible in this. Isn't that right?

SENATOR MARSH: It is possible.
